

## Off-Road Namibia

With its variety on colored landscapes, its exotic flora and fauna with a large number of species Namibia belongs to the most attractive destinations of the earth. Namibia's contrasts are impressive: apricot mammoth dunes luxuriantly turn green for riversides, there - in the oldest desert of the world here: the Namib.

**You experience a wonderful Africa with enchanting savannas and dune landscapes. Namibia offers you not only a unusual destination but you have a slight, stress-free journey by convenient night flights, and no jetlag.**
